- (viii) The surface coating warranty shall not apply where the growth of organic matter such as moss or lichen occurs on the roof. Organic matter, if left unchecked, may damage the surface of any roofing or cladding product.
- (ix) Any remedial work carried out under this warranty shall not extend the term of warranty.
- (x) This warranty will not apply if modifications or changes are made to the design or function of the tiles after it has been shipped from the Company's factory except where the modification or changes have been specified or instructed by the company.
- (xi) A claim under this warranty must be made in writing to the Company accompanied with a copy of this warranty.
- (xii) This warranty will only be valid when a completed copy has been registered with the Company at the address shown above within 90 days of the roof being installed.

If rainwater from the roof is collected for drinking, the system must be disconnected from the tank for three good rainfalls or hosed down before reconnecting.

How to care for your roof:

1. You should not walk on your roof unless absolutely necessary. To avoid denting or other damage to your roof, you should, if you have occasion to walk on it, firstly wear soft-soled shoes and secondly place your feet on the lowest point of the tile at the front edge.
2. In certain locations due to humidity or the proximity of trees and shrubs, lichen and moss may grow on your roof. The manufacturer recommends this growth be removed by spraying with Moss Boss. Consult your local distributor to ascertain the suitability of any coating or cleaning material you wish to apply to your roof.
